Instructions

Section references are to the Internal Revenue Code.

Purpose of form. If you were a citizen or resident of the United States and had income from sources in the Virgin Islands or income effectively connected with the conduct of a trade or business in the Virgin Islands, you may owe tax to the Virgin Islands on that income. Your Virgin Islands tax liability is a percentage of your U.S. tax liability. Use **Form 8689** to figure the amount of U.S. tax allocable to the Virgin Islands. **Do not** use this form if you were a bona fide resident of the Virgin Islands on the last day of the tax year.

Credit for U.S. tax allocable to the Virgin Islands. You can take a credit on your U.S. return for the U.S. tax allocable to the Virgin Islands only if you paid the tax to the Virgin Islands. To take the credit, you **must** complete Form 8689 and attach it to your Form 1040. The credit is claimed on Form 1040, line 64.

Where to file. You must file identical tax returns with the United States and the Virgin Islands. File your original Form 1040 (including Form 8689) with the Internal Revenue Service Center, Philadelphia, PA 19255.

File a copy of your Form 1040 (with copies of all attachments, forms, and schedules, including Form 8689) with the Virgin Islands Bureau of Internal Revenue, 9601 Estate Thomas, Charlotte Amalie, St. Thomas, VI 00802. They will accept a copy of your U.S. return and process it as an original return.

Note: If you file jointly and only one spouse qualifies as a bona fide resident of the Virgin Islands, the resident status for both spouses and subsequent tax treatment is determined by the spouse with the higher adjusted gross income (disregarding community property laws). File your original return in the jurisdiction (the Philadelphia Service Center or the Virgin Islands) of the spouse who had the higher adjusted gross income for the tax year.

Additional information. Pub. 570, Tax Guide for Individuals With Income From U.S. Possessions, has an example of how to complete Form 8689. To get Pub. 570, see **Quick and Easy Access to Tax Help and Forms** in the Instructions for Form 1040.

Part I—Income From the Virgin Islands

Source of income. The rules for determining the source of income are discussed in detail in sections 861 through 865. Some general rules are:

- The source of wages, salaries, or tips is generally where the services are performed. If you worked both in and outside the Virgin Islands, include on line 1 only wages, salaries, or tips earned while you were in the Virgin Islands.
- The source of interest income is generally where the payer is located. For example, interest from a certificate of deposit issued by a Virgin Islands bank or a Virgin Islands branch of a U.S. bank is Virgin Islands source income.
- Generally, dividends are sourced where the paying corporation is incorporated.
- Taxable refunds, credits, or offsets of local Virgin Islands income taxes only include nonmirror code income taxes.
- Alimony received from a person who is a bona fide resident of the Virgin Islands is Virgin Islands source income.
- See section 863(c) for rules on determining the source of income attributable to transportation services that begin or end in the United States or a U.S. possession. See section 863(d) for rules on income from space or ocean activities.

Personal property. The source of income from the sale of nondepreciable personal property is the country of the seller's residence. There is a special rule, however, for U.S. citizens and resident aliens who sell personal property while maintaining a tax home abroad. Any gain from such sales may be treated as foreign source income only if a tax of at least 10% of the gain is paid to a foreign country. Income from the sale of inventory is generally sourced where the title to the property passes.

The portion of gain from the sale of depreciable personal property used in a trade or business that reflects allowable depreciation deductions and gain (to the extent of amortization deductions) from the sale of intangible property, such as a patent, copyright, trademark, franchise, or similar property, is sourced where the original deductions of the property were sourced. For depreciable personal property, gain in excess of these depreciation deductions is sourced as if the property were inventory. For intangible property, gain in excess of amortization deductions is sourced under the general residence of the seller rule if the payments **are not** contingent on productivity, use, or disposition of the intangible property, and under the place of use rule for royalties if the payments **are** contingent. See section 865 for details.

U.S.-owned foreign corporations. Part of the following types of income derived from a U.S.-owned foreign corporation that has income from U.S. sources may be required to be treated as U.S. source income.

- Foreign personal holding company income included in gross income.
- Subpart F income included in gross income.
- Interest.
- Dividends.
