

Part I. Rulings and Decisions Under the Internal Revenue Code of 1986

Section 61.—Gross Income Defined

26 CFR 1.61-21: Taxation of fringe benefits.

Fringe benefits aircraft valuation formula. For purposes of section 1.61-21(g) of the Income Tax Regulations, relating to the rule of valuing non-commercial flights on employer-provided aircraft, the Standard Industry Fare Level (SIFL) cents-per-mile rates and terminal charges in effect for the first half of 1999 are set forth.

Rev. Rul. 99-12

For purposes of the taxation of fringe benefits under section 61 of the Internal Revenue Code, section 1.61-21(g) of the Income Tax Regulations provides a rule for valuing noncommercial flights on employer-provided aircraft. Section 1.61-21(g)(5) provides an aircraft valuation formula to determine the value of such flights. The value of a flight is determined under the base aircraft valuation formula (also known as the Standard Industry Fare Level formula or SIFL) by

multiplying the SIFL cents-per-mile rates applicable for the period during which the flight was taken by the appropriate aircraft multiple provided in section 1.61-21(g)(7) and then adding the applicable terminal charge. The SIFL cents-per-mile rates in the formula and the terminal charge are calculated by the Department of Transportation and are reviewed semi-annually.

The following chart sets forth the terminal charges and SIFL mileage rates:

<i>Period During Which the Flight Was Taken</i>	<i>Terminal Charge</i>	<i>SIFL Mileage Rates</i>
1/1/99 – 6/30/99	\$32.69	Up to 500 miles = \$.1788 per mile 501-1500 miles = \$.1364 per mile Over 1500 miles = \$.1311 per mile

DRAFTING INFORMATION
